Profile

I am a new resident, having been full time on the Ranch for approximately one year. I am a passionate community member, and I have strived to engage with the community since day one. I have worked with non-profits, picking up litter across the country for multiple years, and used that experience recently to organize a clean up here at the Ranch. I am a successful business owner, with the ability to problem solve, manage time and money and enjoy networking. I believe that as a Board Member, I can lend a unique perspective. I am 30 years old, have lived in multiple states, have experienced both poverty and privilege. I strive to improve every community I am a part of, as well as respect the culture and traditions that have formed them. I think that we can bring this dear community closer in so many ways.
