

Special Road District ("SRD")

A Special Road District (SRD) is a special taxing district that can be established in a contiguous territory lying within any county that is not incorporated within the limits of a city for the purpose of improving roadways. In 1982 an election was held to create an SRD in Crooked River Ranch and in 2000, the SRD and Association entered into an agreement that designated the SRD as having primary authority and jurisdiction over the public roads within the boundaries of the SRD (with the exception of County roads). SRD meetings are the first Monday of each month at 6:00pm in the Juniper Room.
